

## Grow and Expand a Business

**Here are some important questions to ask yourself when thinking about how you can grow and expand your business:**

1. How will I finance the growth and expansion?
2. How will I recruit and train new staff to accommodate the expansion?
3. How can advertising help me grow and expand?
4. Will moving my business help me grow and expand?

**Point to consider during growth and expansion:**

1. You can't do it all yourself. You have to learn to let go of some of the responsibility.
2. Expanding too quickly can lead to problems and sometimes even business failure.
3. Updating your business plan regularly is a great tool for business growth and expansion.

**Here is a list of organizations that can help with business growth and expansion:**
