

Workforce Training

Employee training can make the difference in the livelihood and future of your business. Below you will find information on workforce education and training in Dumas.

WORKFORCE EDUCATION & TRAINING

Amarillo College's workforce education and training programs are designed to meet the special needs of business and industry. We are fortunate to have partnered with Amarillo College, Moore County campus to insure that the following services are easily accessible by our new and existing businesses.

Training Partnerships

Amarillo College can partner with business, industry, government entities, and professional organizations to provide workforce training to employees and members. The Co-Sponsorship Agreement is a partnership relationship. Amarillo College and the sponsoring group draft a written agreement which is signed by representatives from Amarillo College and the Co-Sponsor. To learn more, visit www.actx.edu/workforce

Technical Training (Customized)

Changes in technology and processes occur frequently. Amarillo College's customized technical training can help ensure that your employees are current in their field and have the training they need. A visit from an AC training specialist can begin the process of creating a targeted training solution that works for your company. This assessment allows us to evaluate your exact needs and to work with you to design a cost efficient and flexible solution for you and your company. www.actx.edu/custom

Non-Technical Training (Customized)

Amarillo College is your premier source for short-term, employment-related training. We are dedicated to helping businesses, professional organizations and government agencies develop and deliver programs that increase productivity and profitability. You may choose from numerous training options, and Amarillo College can tailor programs to meet your specific needs and deliver at a time and location convenient to you. www.actx.edu/workforcetraining/index.php

Non Technical Training (Open Enrollment)

Open Enrollment seminars are designed with the individual participant in mind. It is our goal to provide cost-effective, quality non-technical workforce training to the employees and employers of the business community. Classes are open to all individuals. This allows the participants to attend classes of their choice and network with others who are attending the classes. They not only learn the skills for the classes being taught but also meet others who are seeking similar training solutions. www.actx.edu/workforcetraining/index.php

Occupational Education

Education is more than a one-time experience leading to a diploma or degree. In today's world of accelerating change, training and learning have become a lifelong process. In response to this reality, the Occupational Education area offers: Public Offerings, Certification Preparation, Mandated Continuing Education, and Online Certification Courses. www.actx.edu/occed

Continuing Healthcare Education

The Center for Continuing Healthcare Education offers a wide range of programs, conferences, and courses for medical professionals. Programs are developed, customized, and selected to address assessed needs, using speakers who are recognized on a local, national, and international level. The Center is an approved provider of continuing nursing education by the Texas Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. www.actx.edu/ch

Continuing Education - General Information

Amarillo College is a comprehensive community college striving to meet the educational needs of area residents. Education is more than a one-time experience leading to a diploma or degree. In today's world, there is clearly a need for education to continue as a lifelong process. An important element in AC's open-door philosophy, these programs provide a varied means for students to pursue their personal learning & professional training.
